

User Flows & State Diagrams

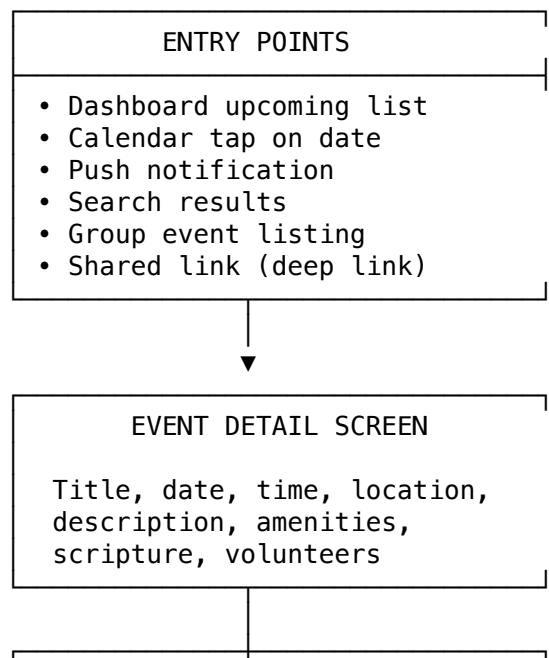

Religious Organization Calendar App (ROCA)

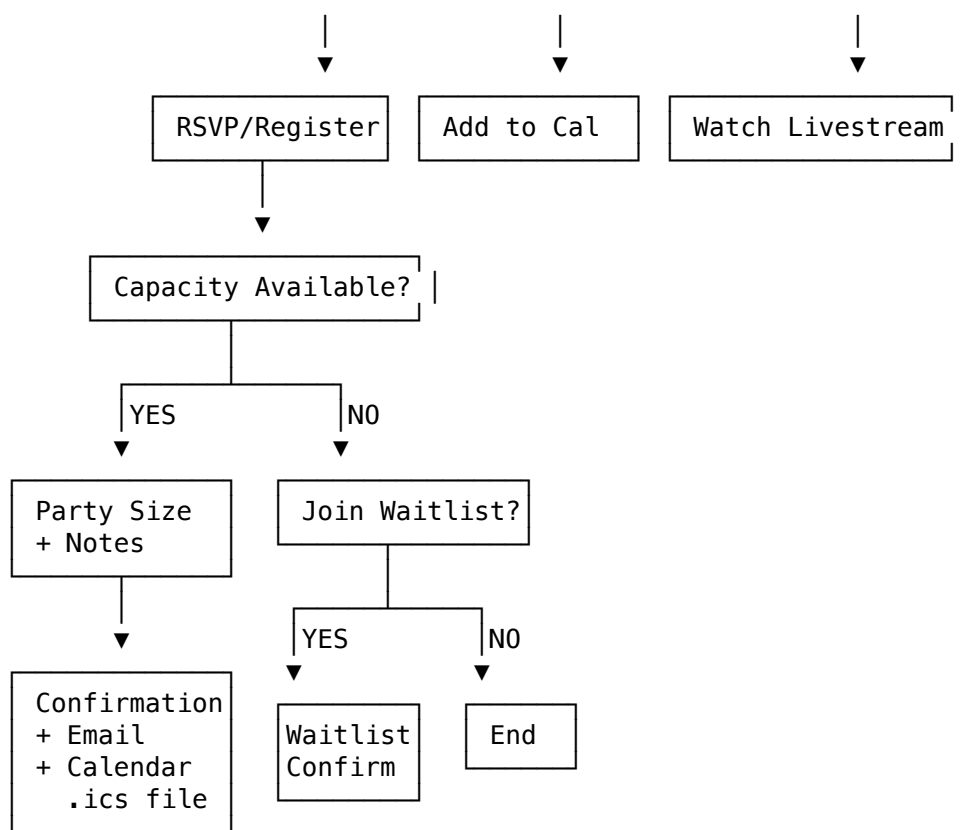

1. User Flows

1.1 New Member Onboarding Flow

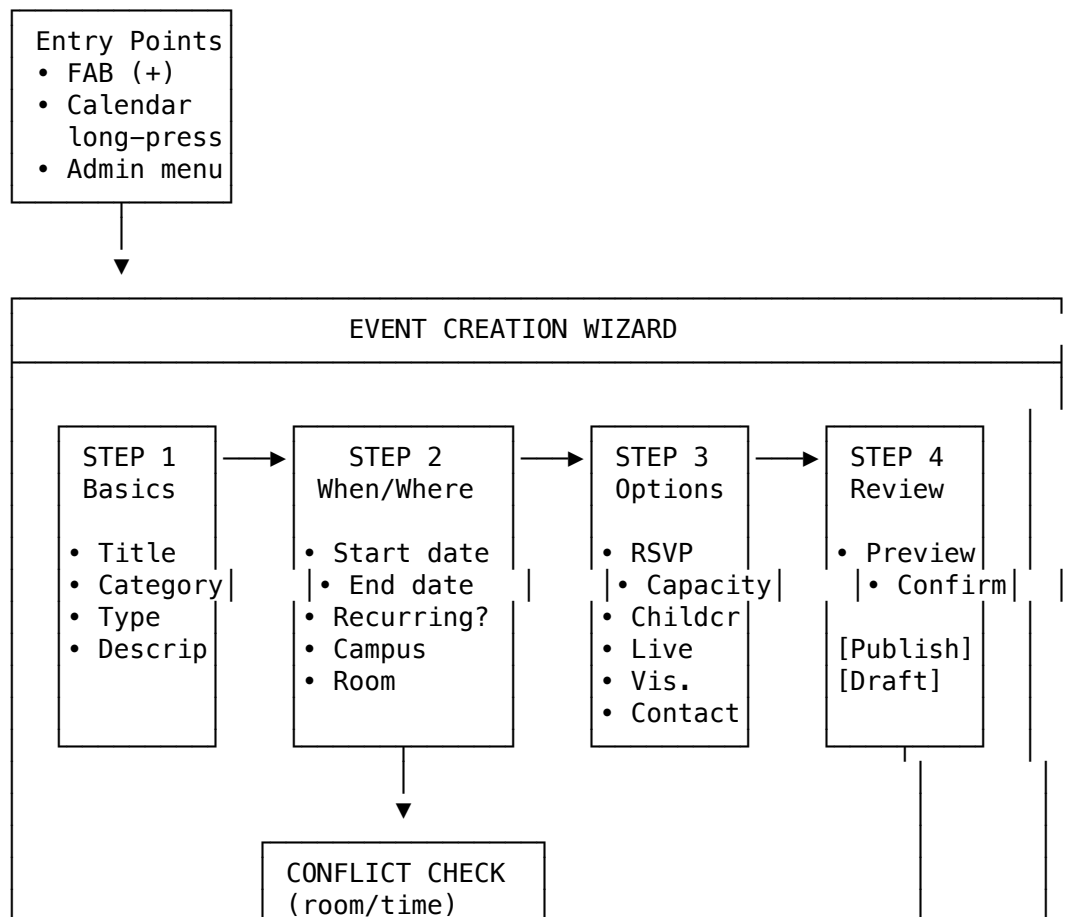

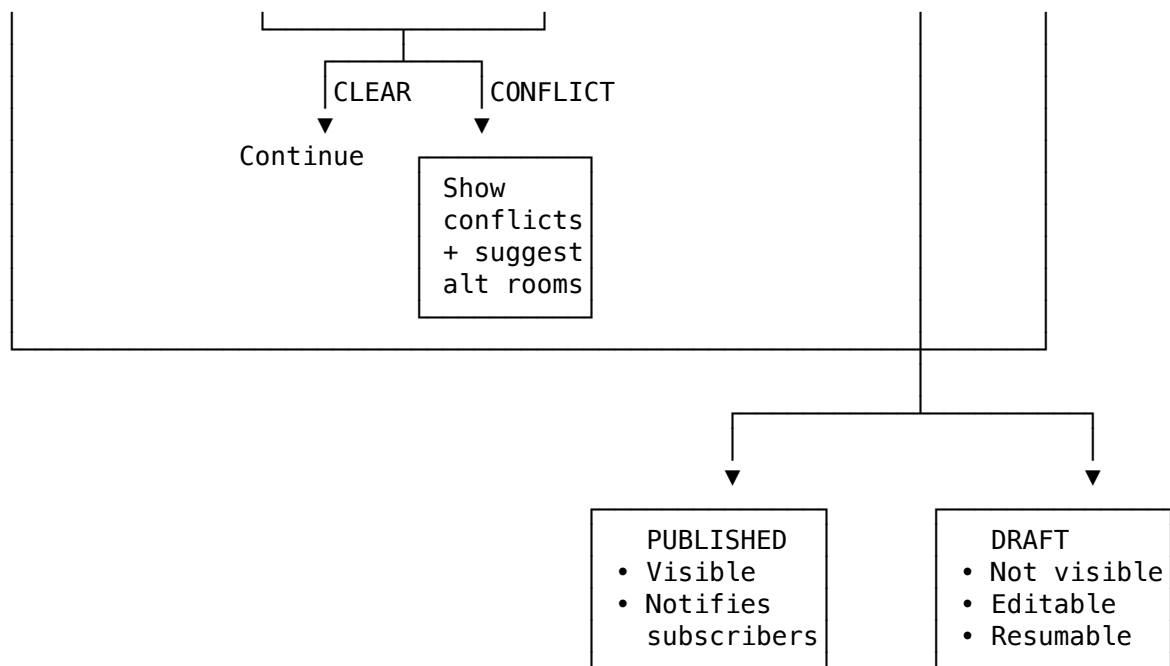

1.2 Event Discovery & RSVP Flow

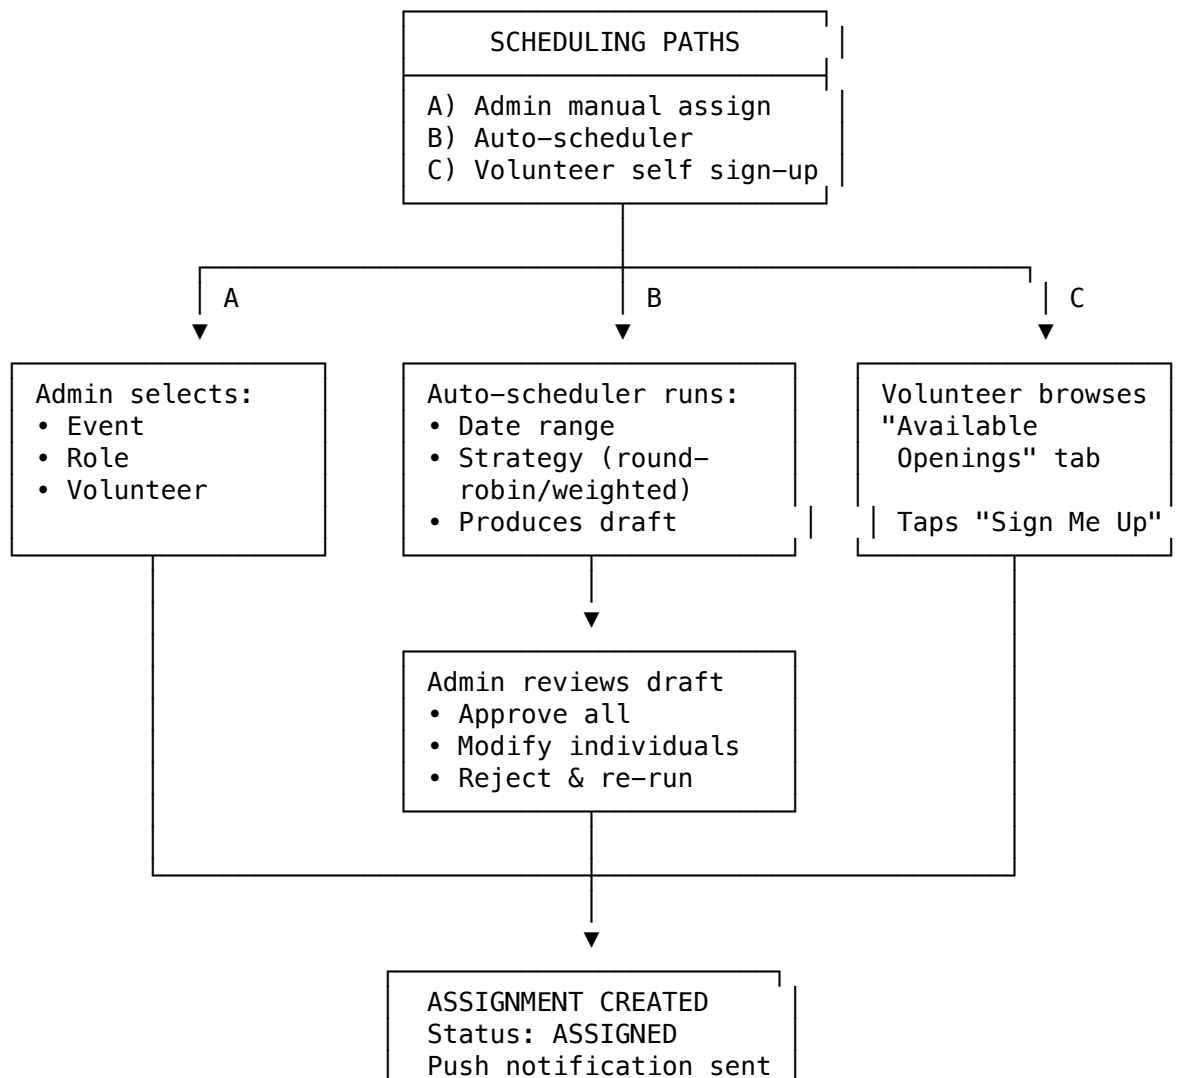

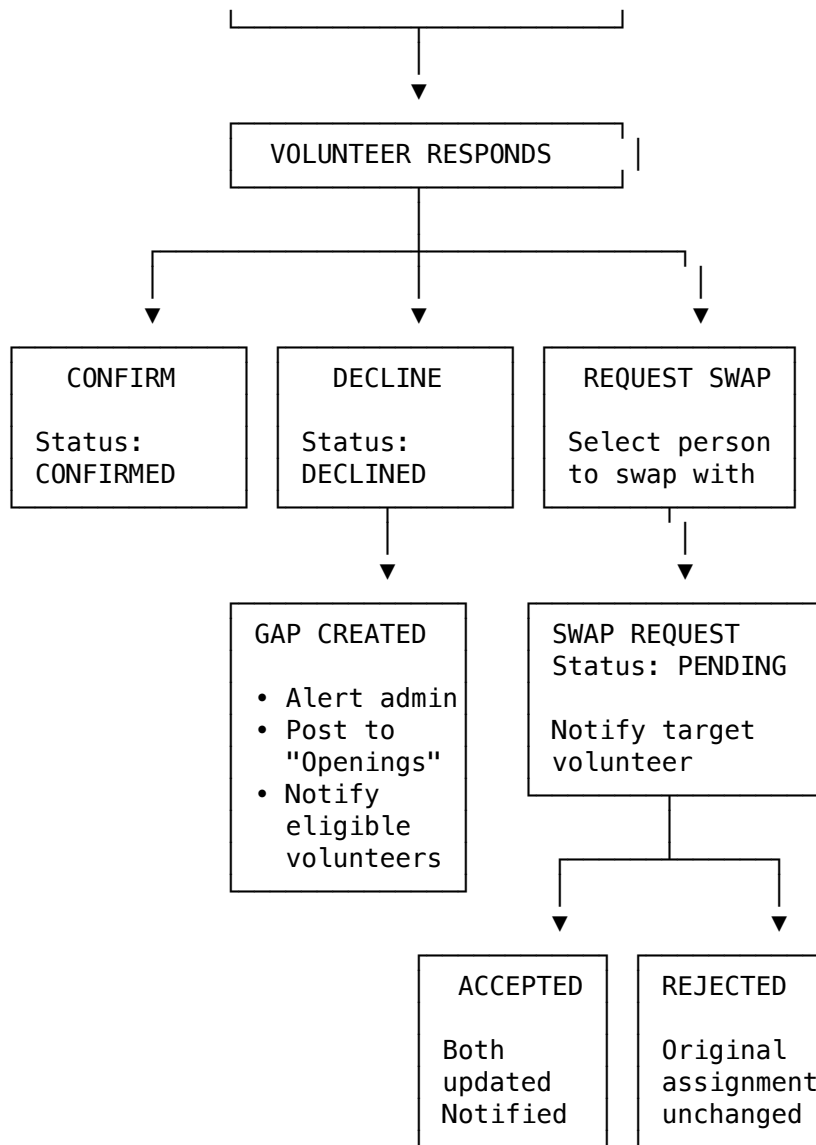

1.3 Event Creation Flow (Leader/Admin/Pastor)

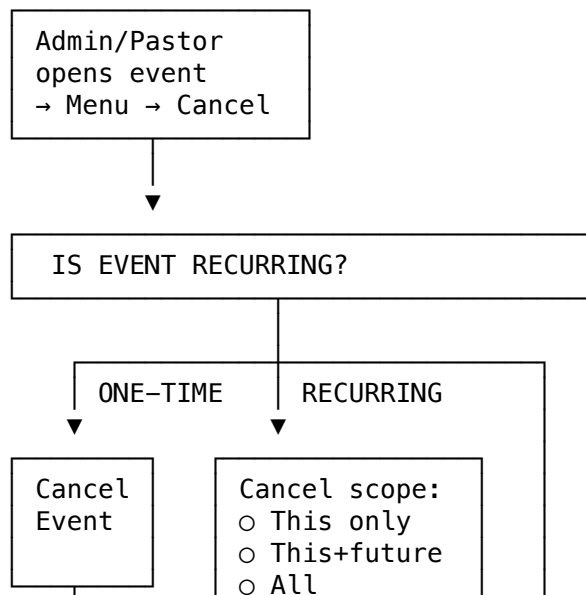

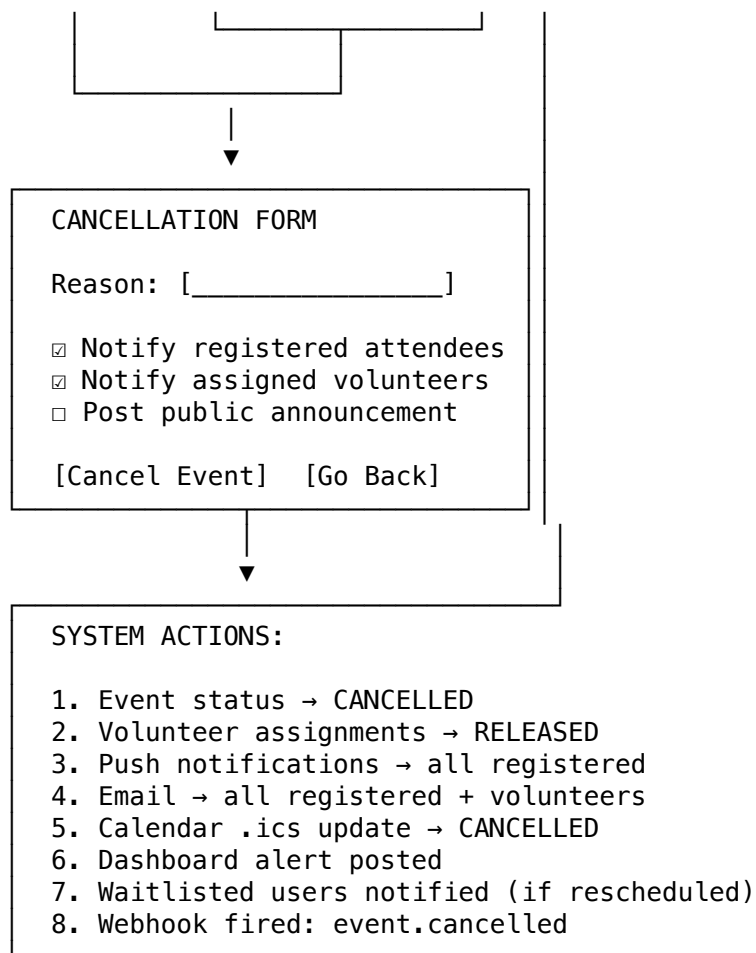

1.4 Volunteer Assignment & Confirmation Flow

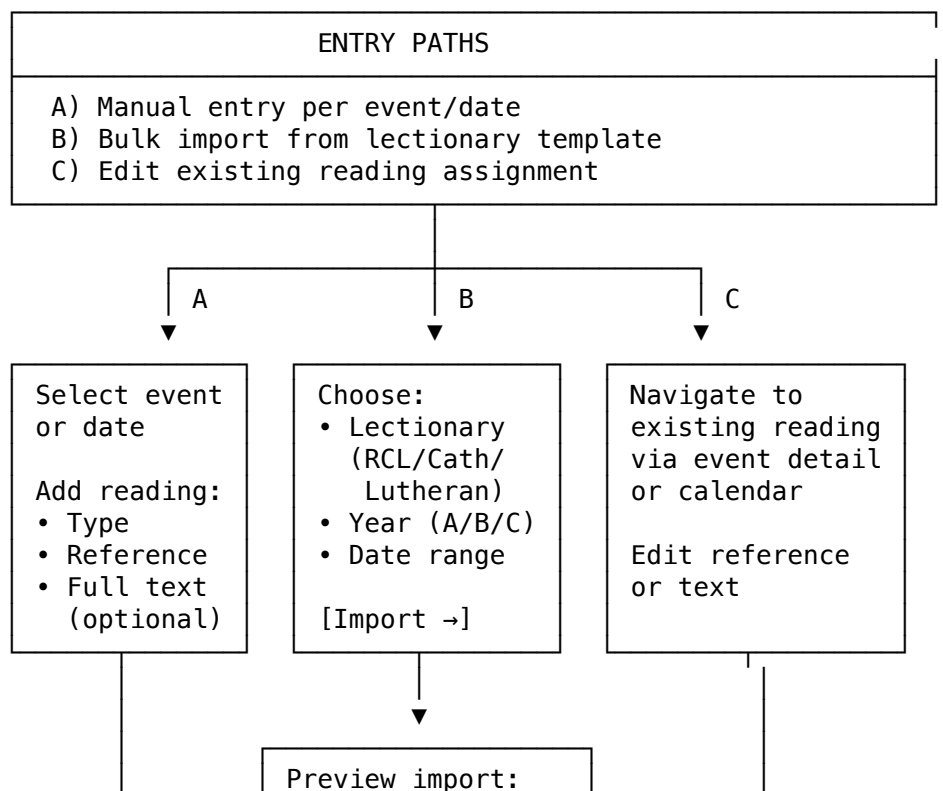

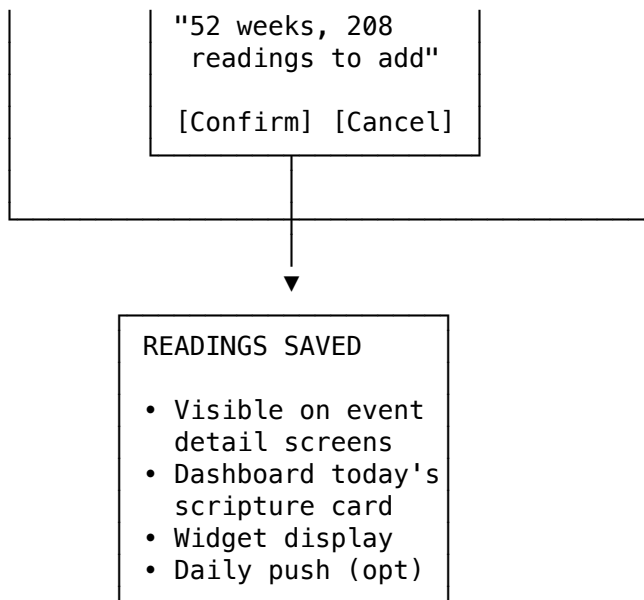

1.5 Event Cancellation & Notification Flow

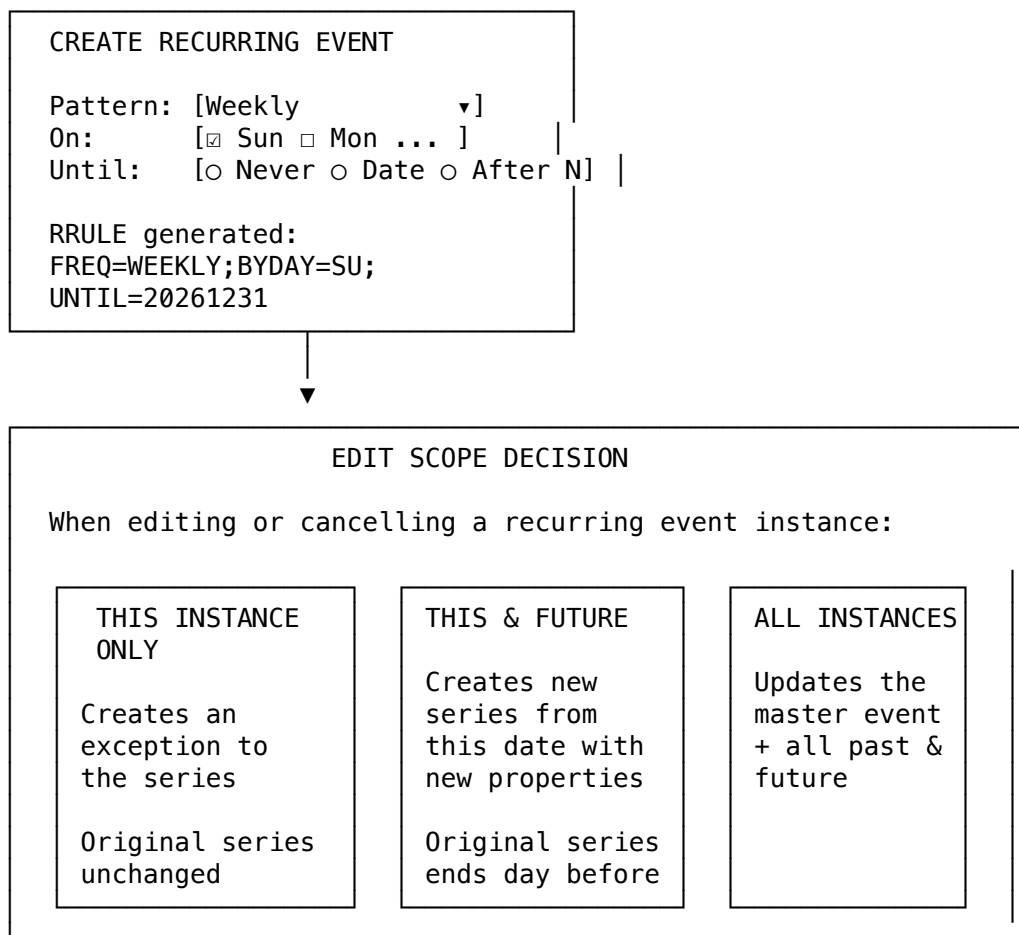

1.6 Scripture & Lectionary Management Flow (Pastor)

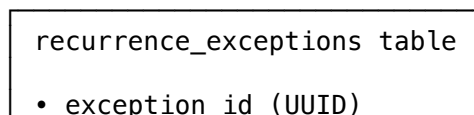

1.7 Recurring Event Management Flow

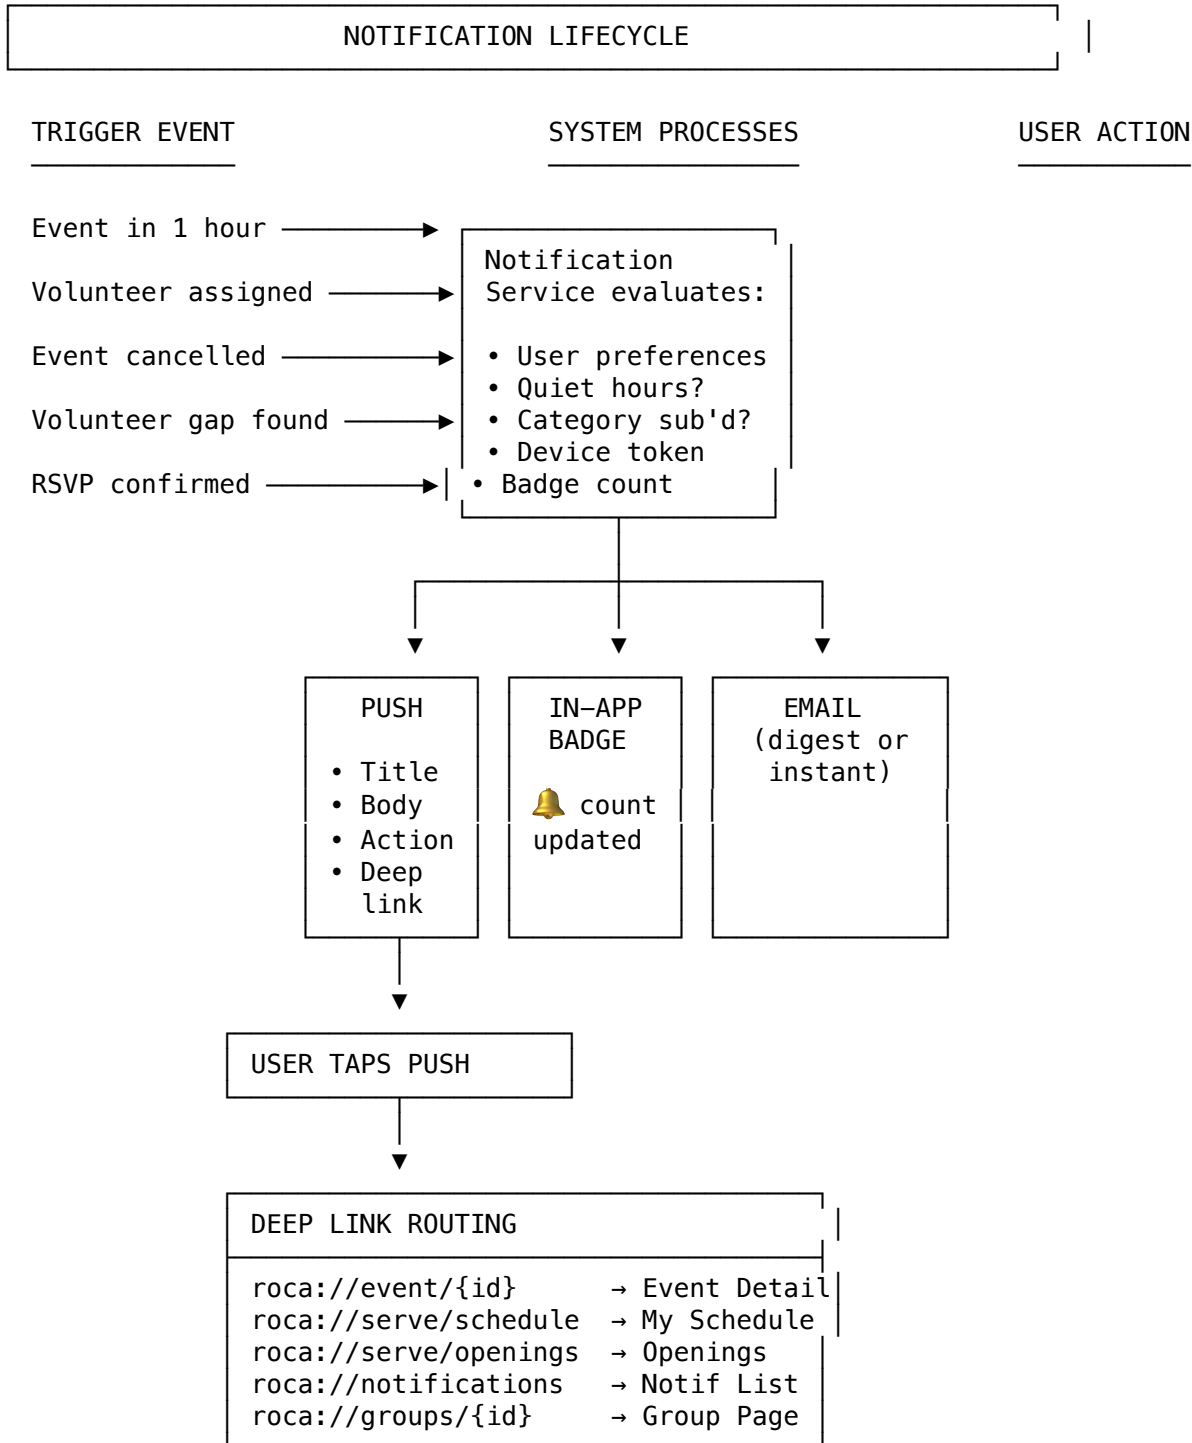

Exception Storage:

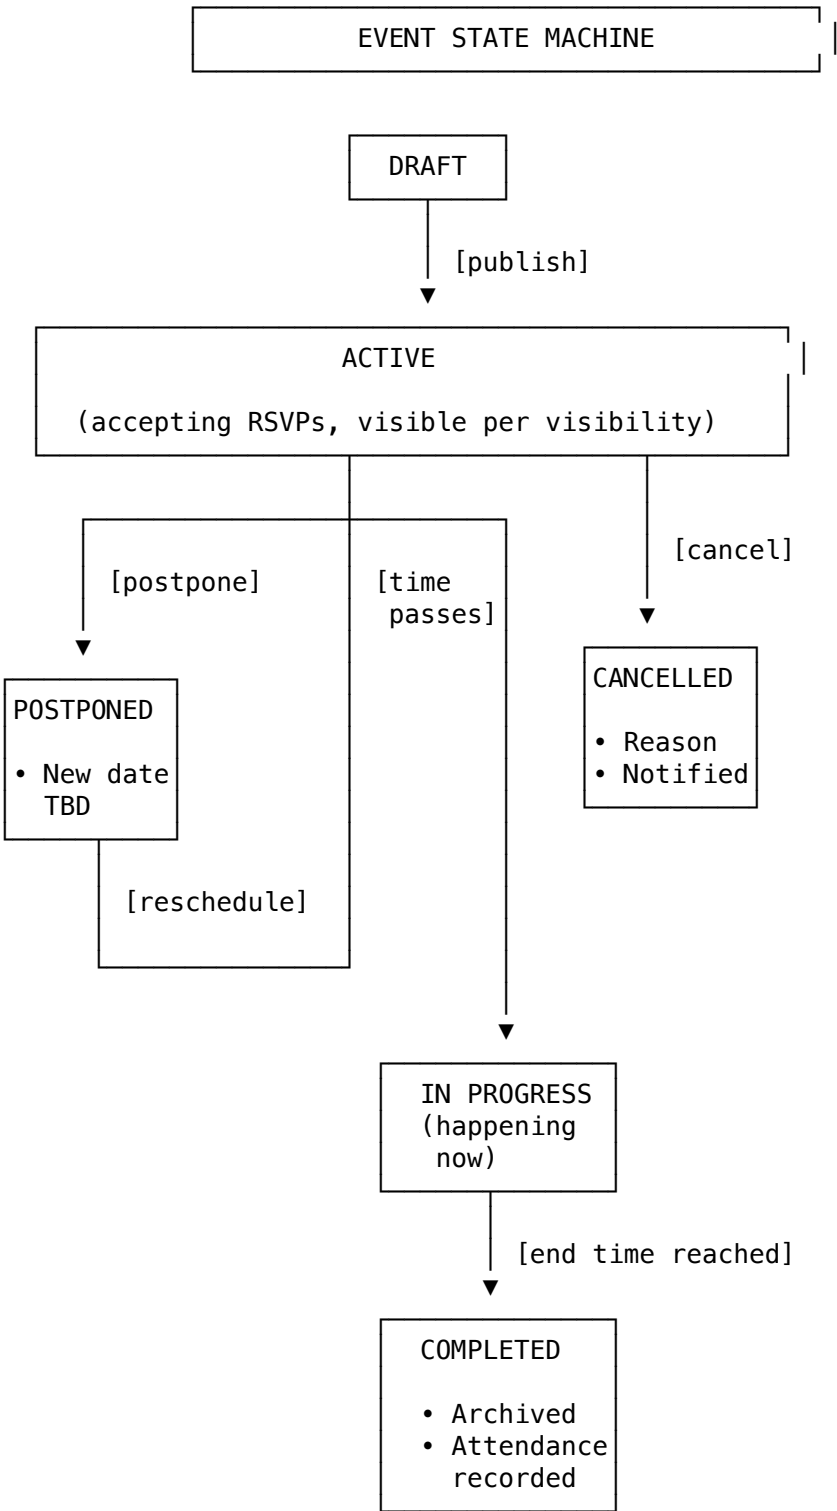

- event_id (parent series)
- original_date (DATE)
- exception_type:
 - modified (new details)
 - cancelled (skipped)
 - rescheduled (new date)
- override_event_id (UUID)
(points to modified copy)

1.8 Push Notification Engagement Flow

2. State Diagrams

2.1 Event Lifecycle States

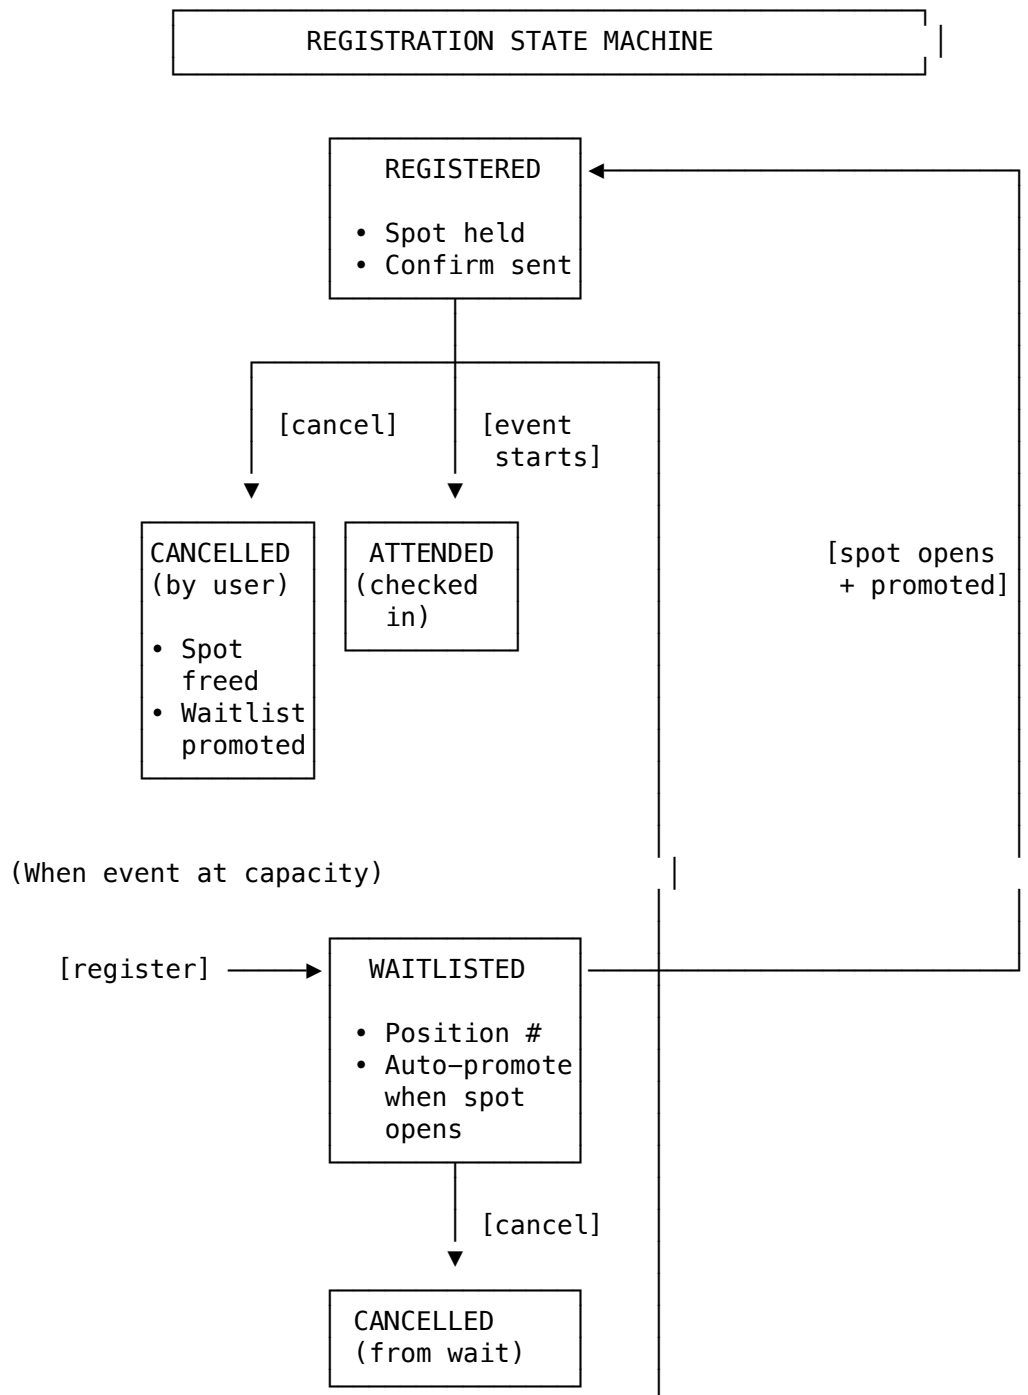

TRANSITIONS:

From	To	Trigger	Who
------	----	---------	-----

DRAFT	ACTIVE	Publish action	Creator+
DRAFT	(deleted)	Discard action	Creator+
ACTIVE	CANCELLED	Cancel action	Admin/Pastor
ACTIVE	POSTPONED	Postpone action	Admin/Pastor
ACTIVE	IN_PROGRESS	Start time hit	System
POSTPONED	ACTIVE	Reschedule	Admin/Pastor
POSTPONED	CANCELLED	Cancel action	Admin/Pastor
IN_PROGRESS	COMPLETED	End time hit	System

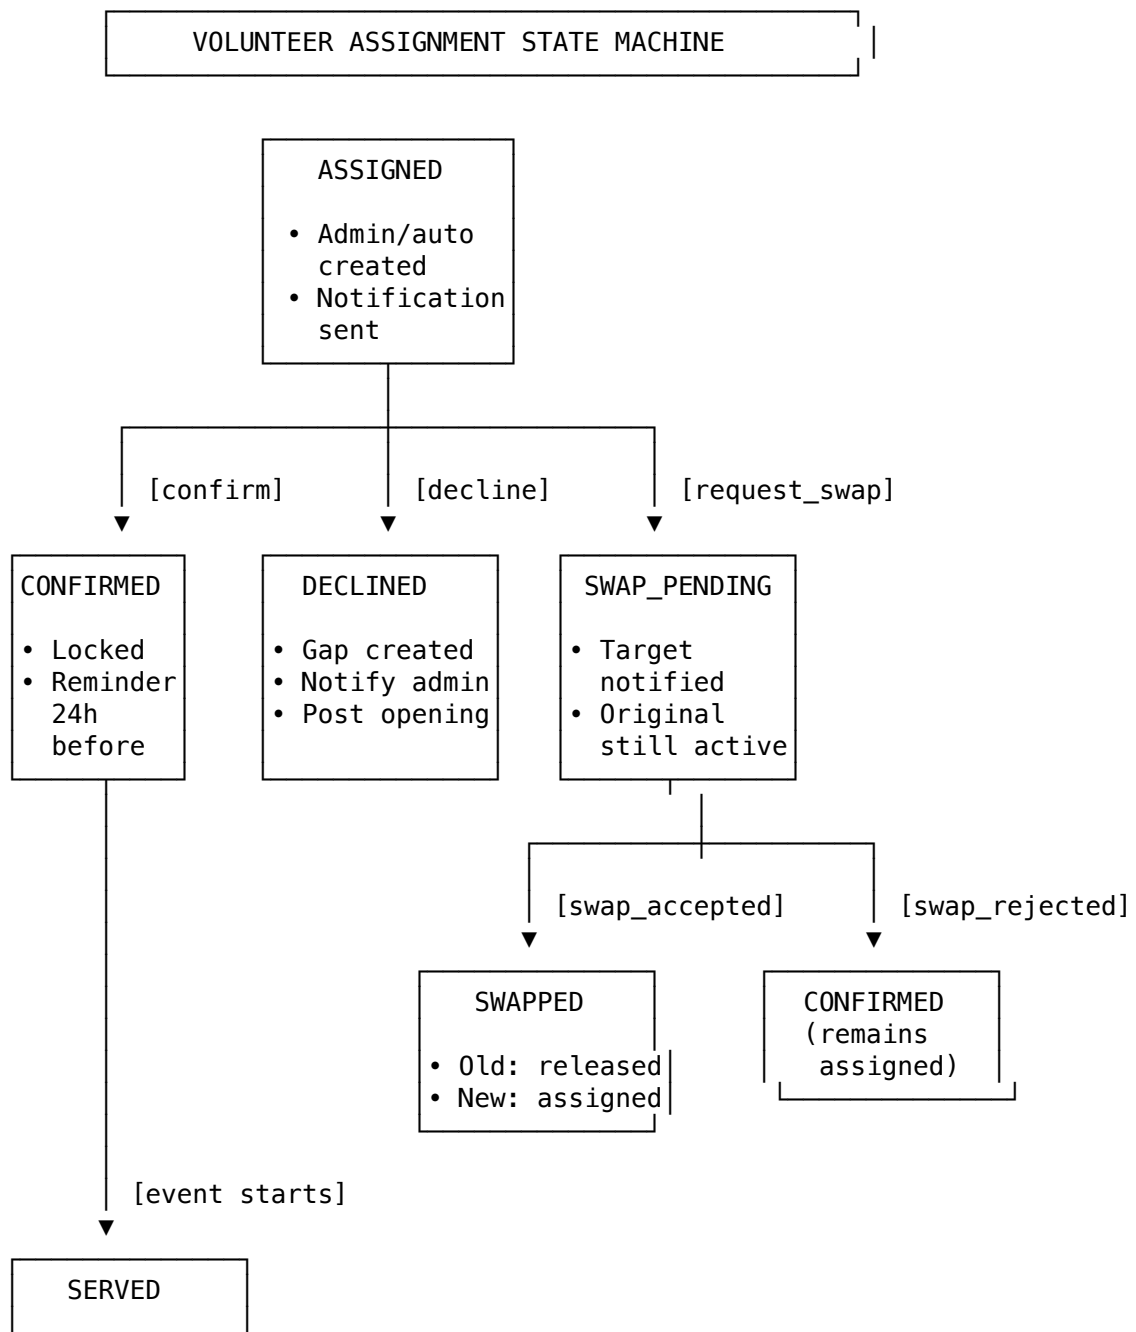

2.2 Registration / RSVP States

TRANSITIONS:

From	To	Trigger	Side Effect
(new)	REGISTERED	RSVP + capacity OK	Confirmation email
(new)	WAITLISTED	RSVP + at capacity	Waitlist position email
REGISTERED	CANCELLED	User/admin cancels	Promote waitlist #1
WAITLISTED	REGISTERED	Spot opens	Promotion notification
WAITLISTED	CANCELLED	User/admin cancels	Reorder queue
REGISTERED	ATTENDED	Check-in at event	Attendance logged
REGISTERED	NO_SHOW	Event ends, no check	Analytics recorded

2.3 Volunteer Assignment States

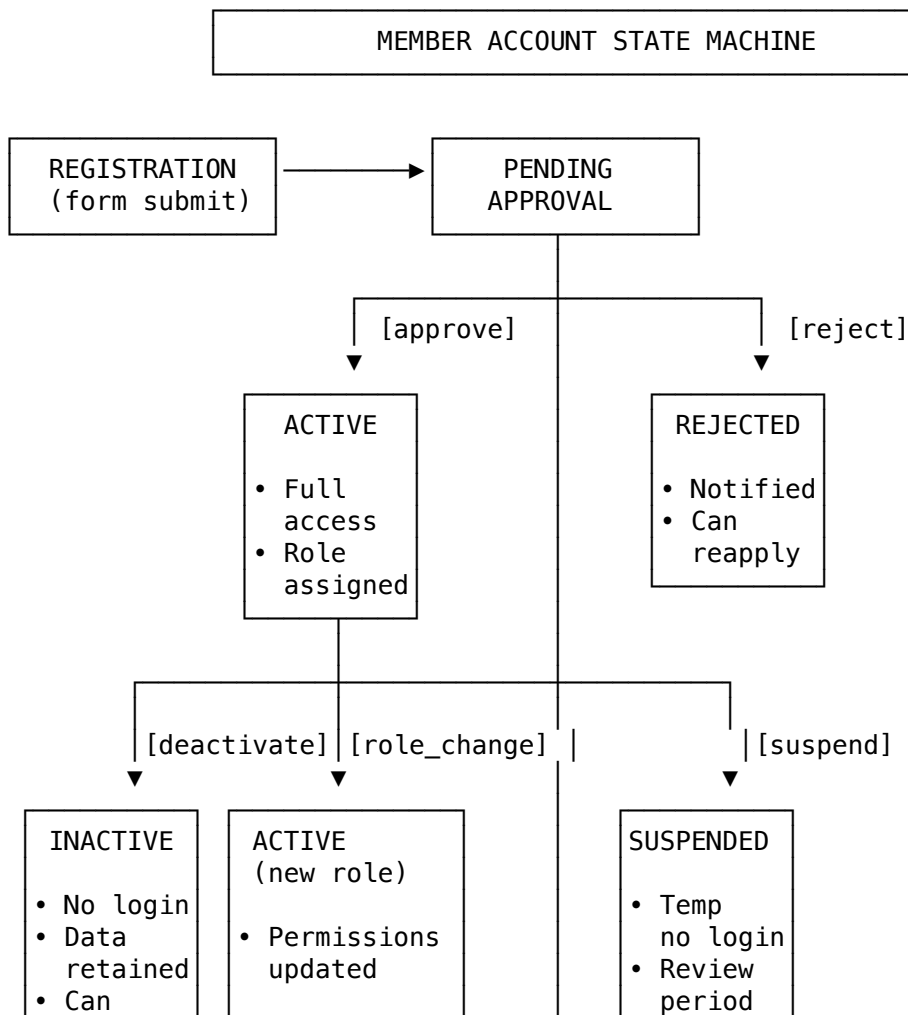

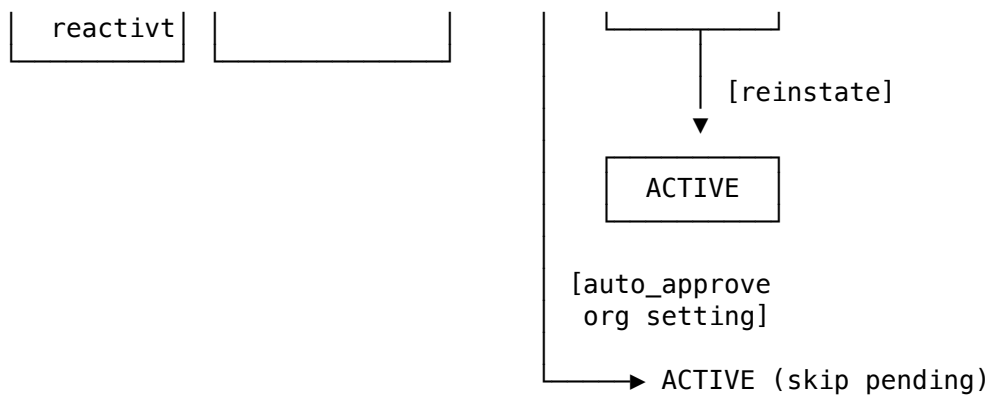

- Completed
- Stats updated
- Streak tracked

FULL TRANSITION TABLE:

From	To	Trigger	Actor	Notify
(new)	ASSIGNED	Manual/auto/signup	Admin/Self	Volunteer
ASSIGNED	CONFIRMED	Volunteer accepts	Volunteer	Admin
ASSIGNED	DECLINED	Volunteer rejects	Volunteer	Admin
ASSIGNED	SWAP_PENDING	Swap requested	Volunteer	Target
SWAP_PENDING	SWAPPED	Target accepts	Target Vol	Both+Admin
SWAP_PENDING	CONFIRMED	Target rejects	Target Vol	Requester
SWAP_PENDING	EXPIRED	48h no response	System	Both+Admin
CONFIRMED	SERVED	Event completes	System	-
CONFIRMED	DECLINED	Late cancel	Volunteer	Admin
ASSIGNED	RELEASED	Event cancelled	System	Volunteer

2.4 Member Account States

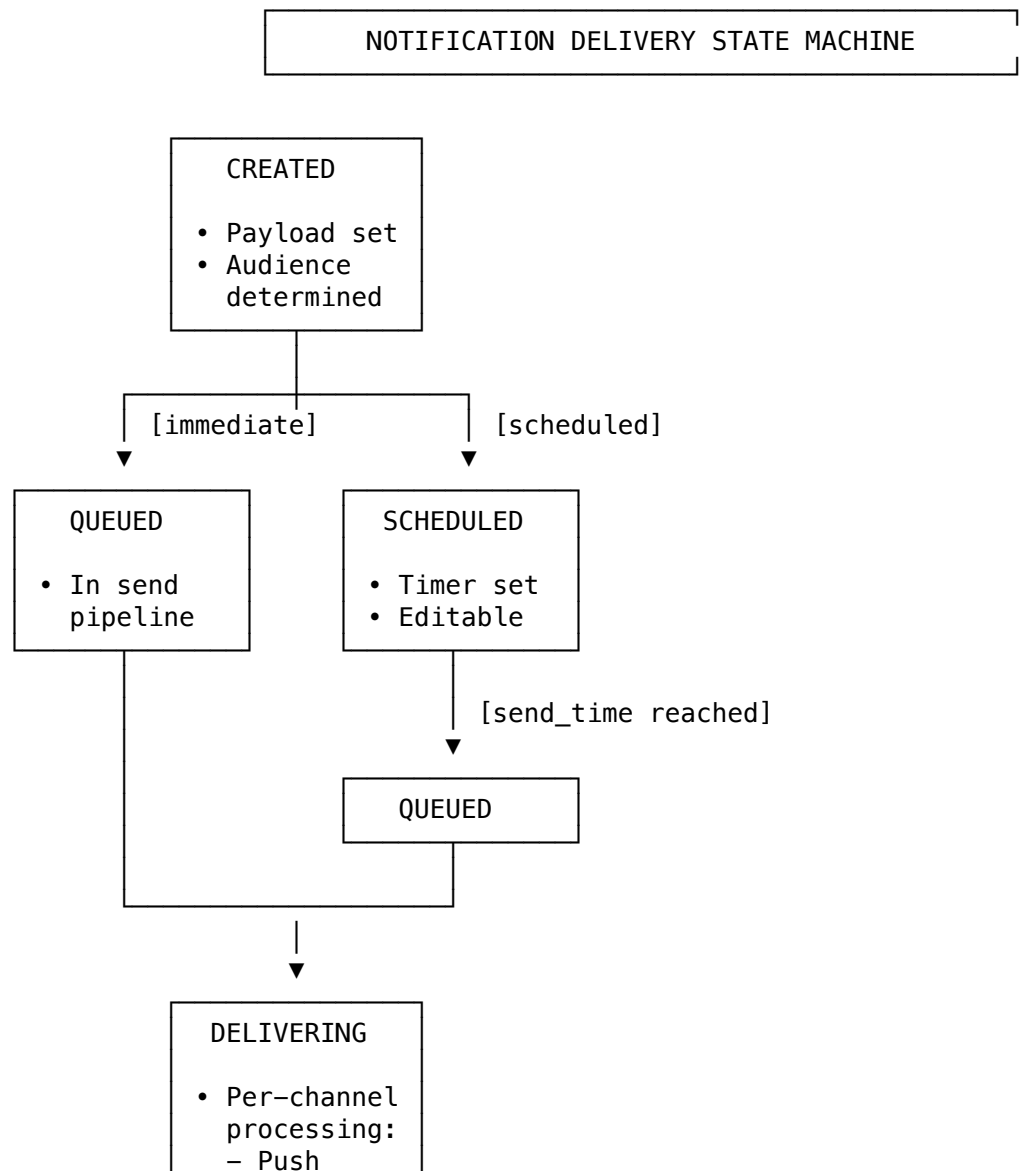

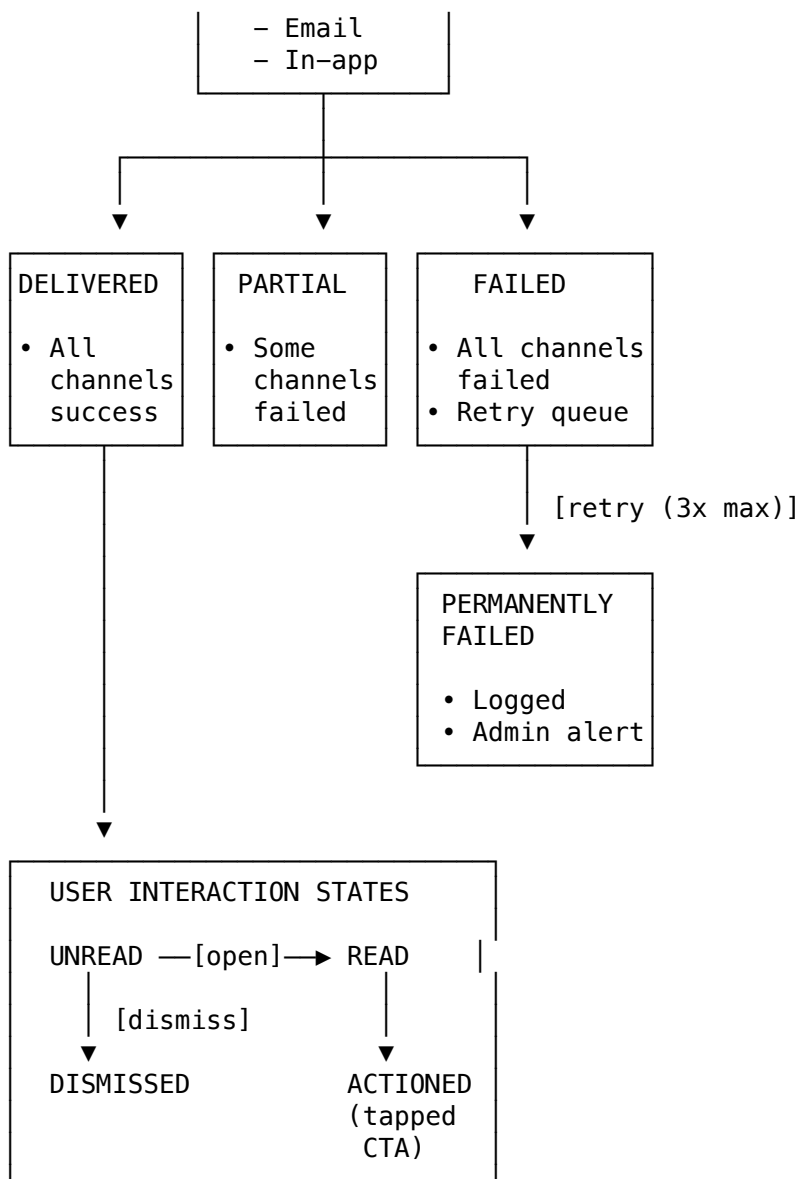

ROLES (assignable in ACTIVE state):

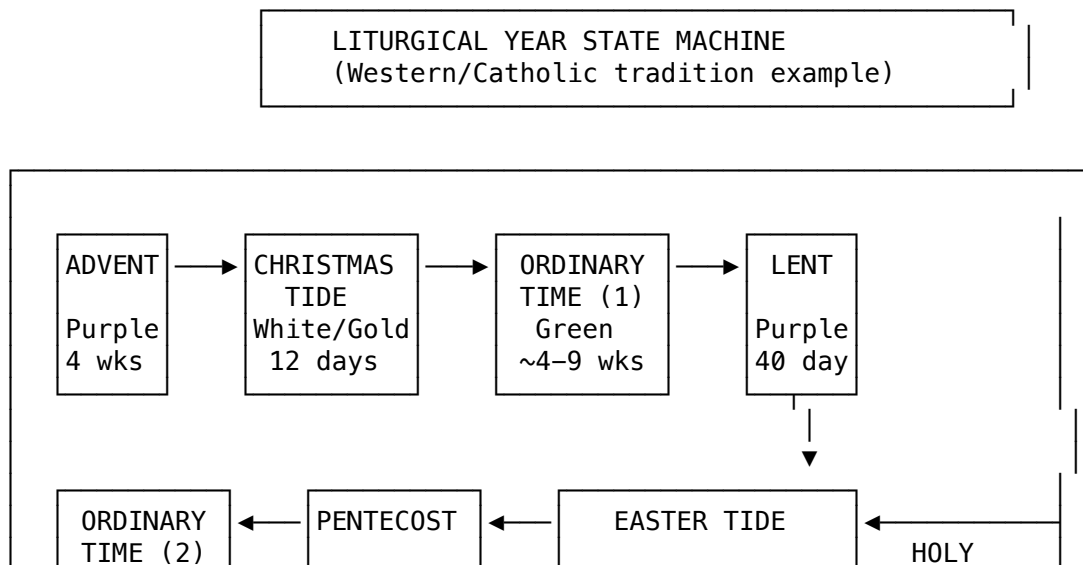

guest → member → volunteer → leader → admin → pastor
 (Each higher role inherits lower role permissions)

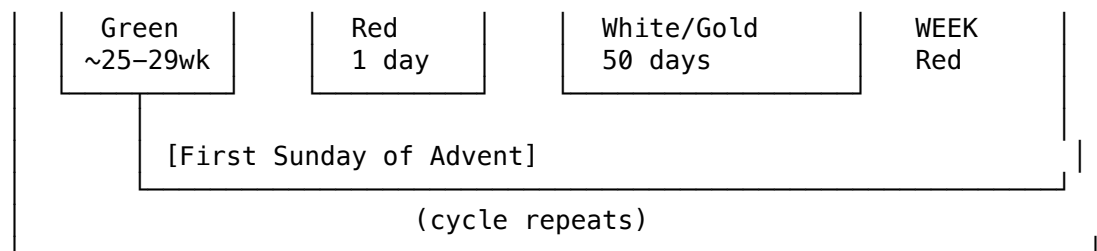

2.5 Notification Delivery States

2.6 Liturgical Season States (Annual Cycle)

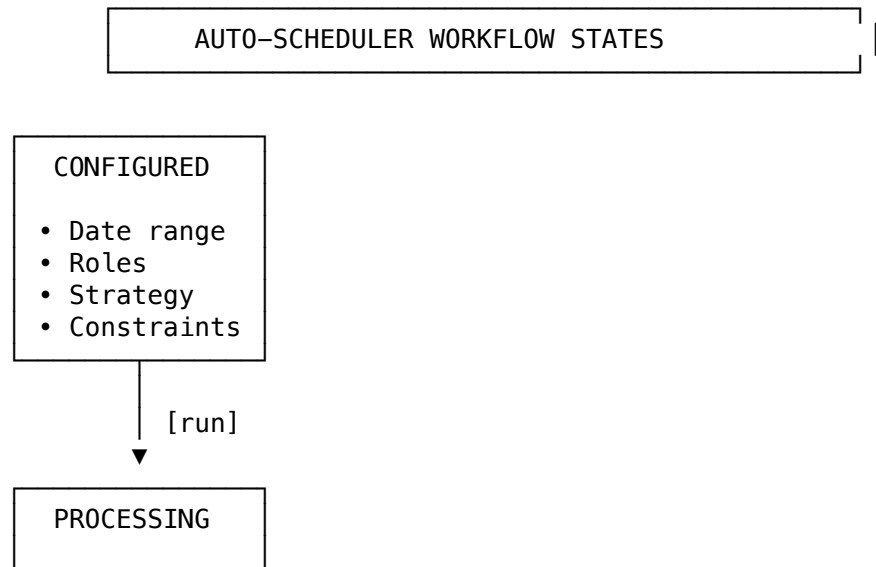

STATE PROPERTIES:

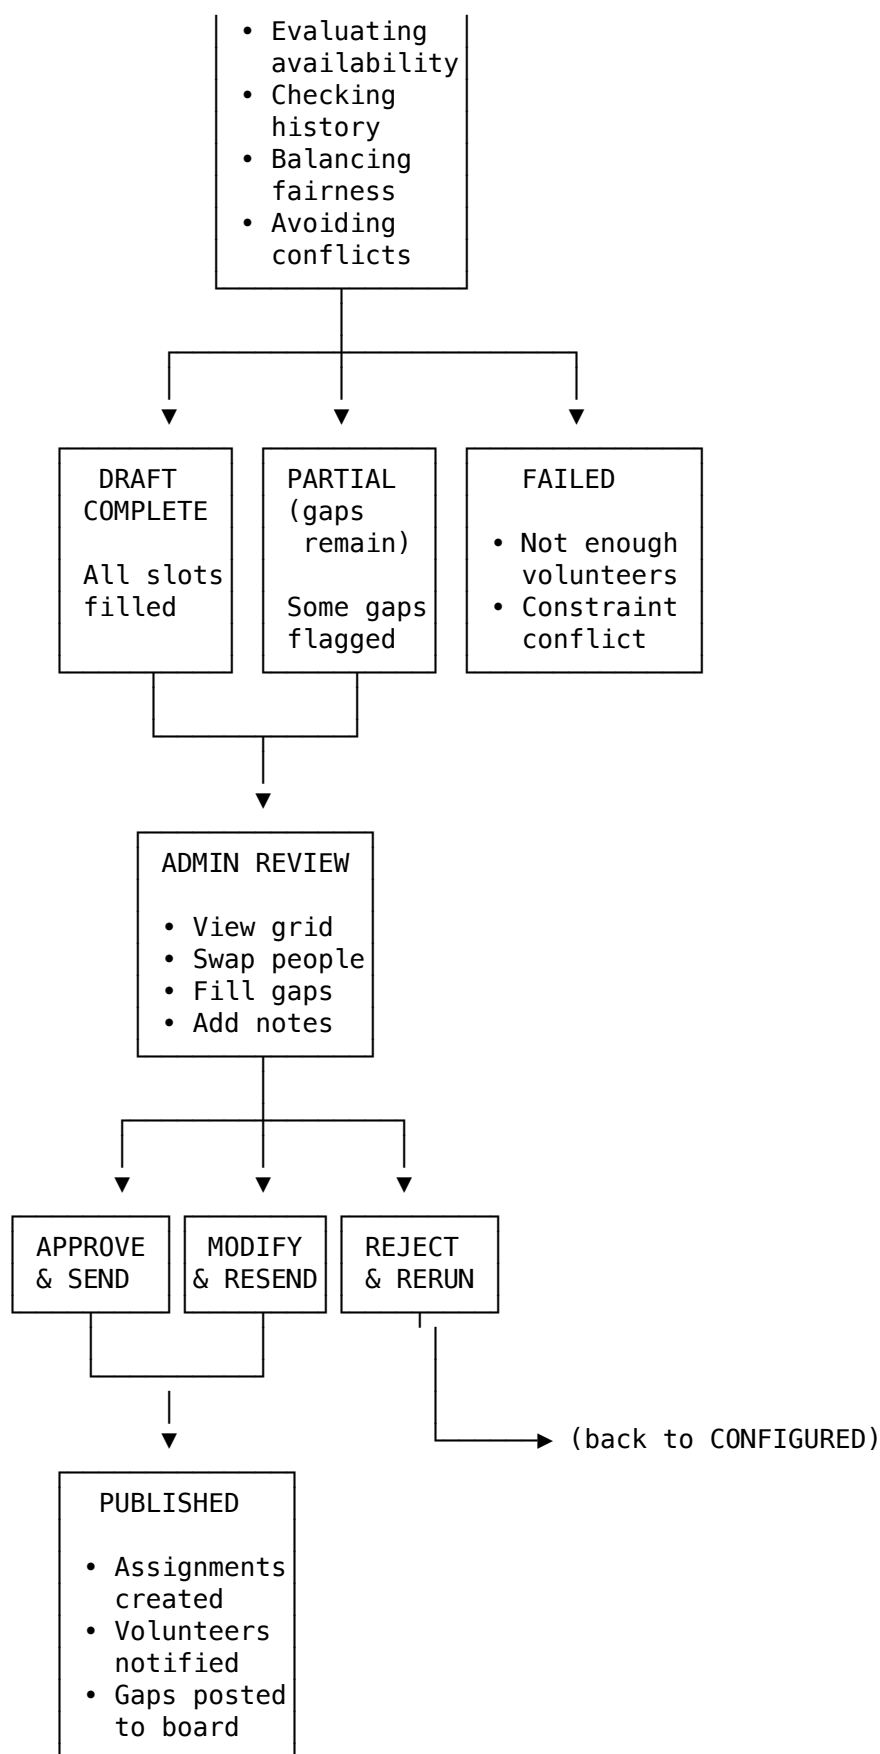

- Each season state carries:
- name: Display name
 - color_hex: Liturgical color for theming
 - start_date: Computed per year (some moveable)
 - end_date: Computed per year
 - week_number: Current week within season
 - readings_cycle: A, B, or C (3-year rotation)
 - special_days: Array of holy days within season

- TRANSITIONS are date-driven (computed annually):
- Advent: 4th Sunday before Christmas
 - Christmas: December 25
 - Ordinary Time 1: Day after Epiphany (Jan 6)
 - Lent: Ash Wednesday (46 days before Easter)
 - Holy Week: Palm Sunday
 - Easter: First Sunday after Paschal Full Moon
 - Pentecost: 50 days after Easter
 - Ordinary Time 2: Day after Pentecost

- SYSTEM BEHAVIOR ON TRANSITION:
1. Update app theme colors (gradient morph)
 2. Update dashboard liturgical banner
 3. Load new season's default scripture cycle
 4. Update widget displays
 5. Fire webhook: season.changed

2.7 Auto-Scheduler States

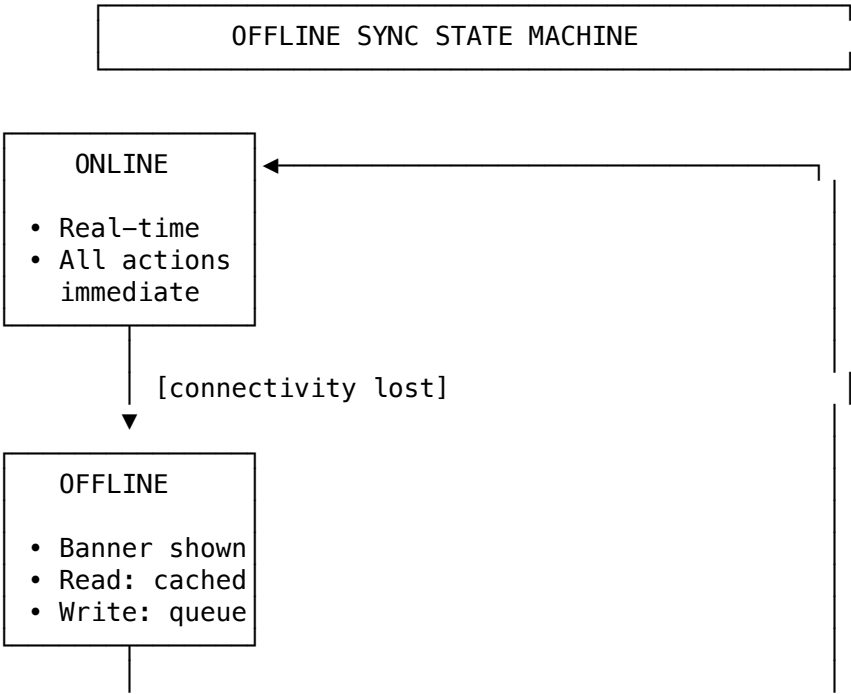

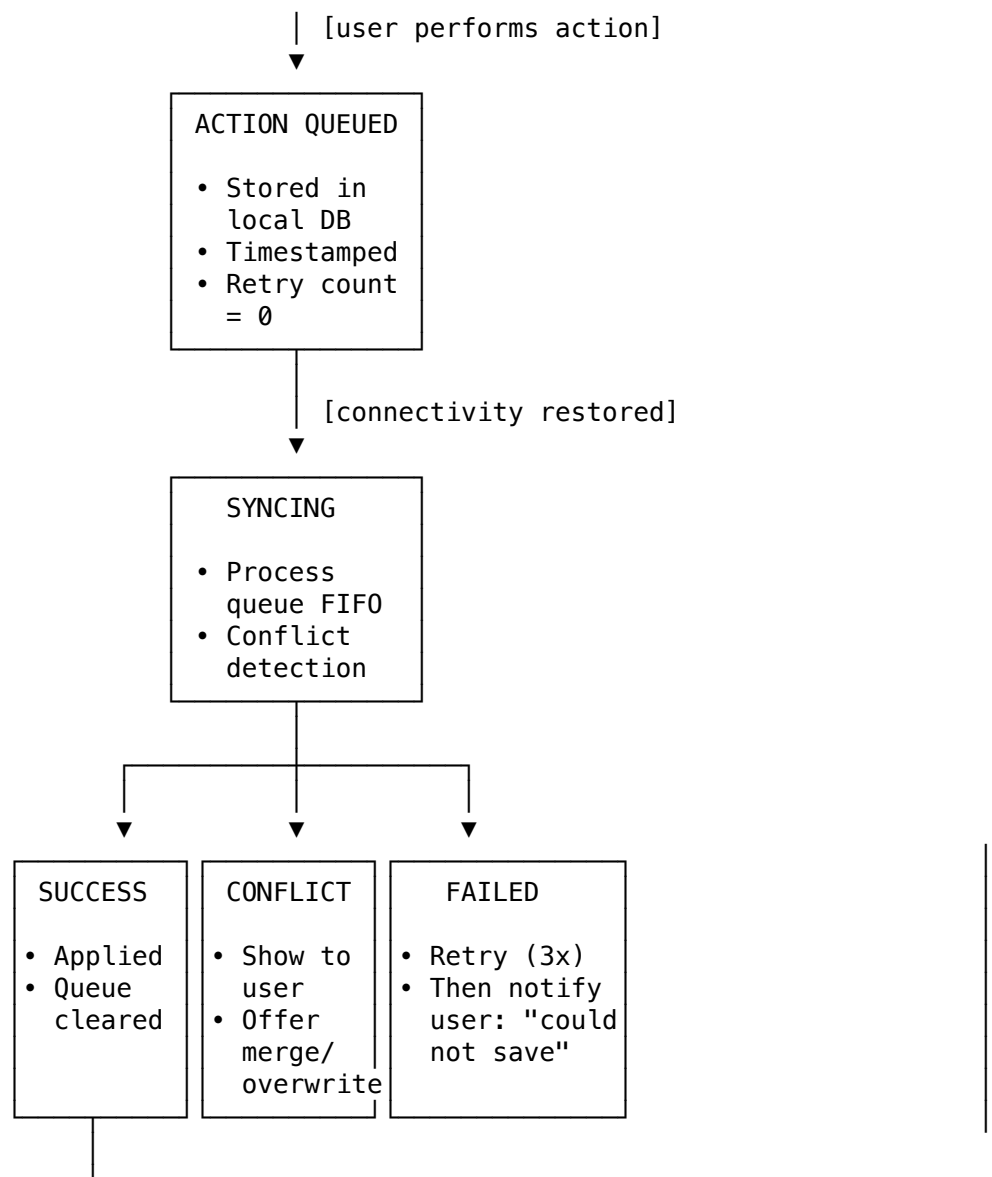

3. Error & Edge Case Flows

3.1 Conflict Resolution Matrix

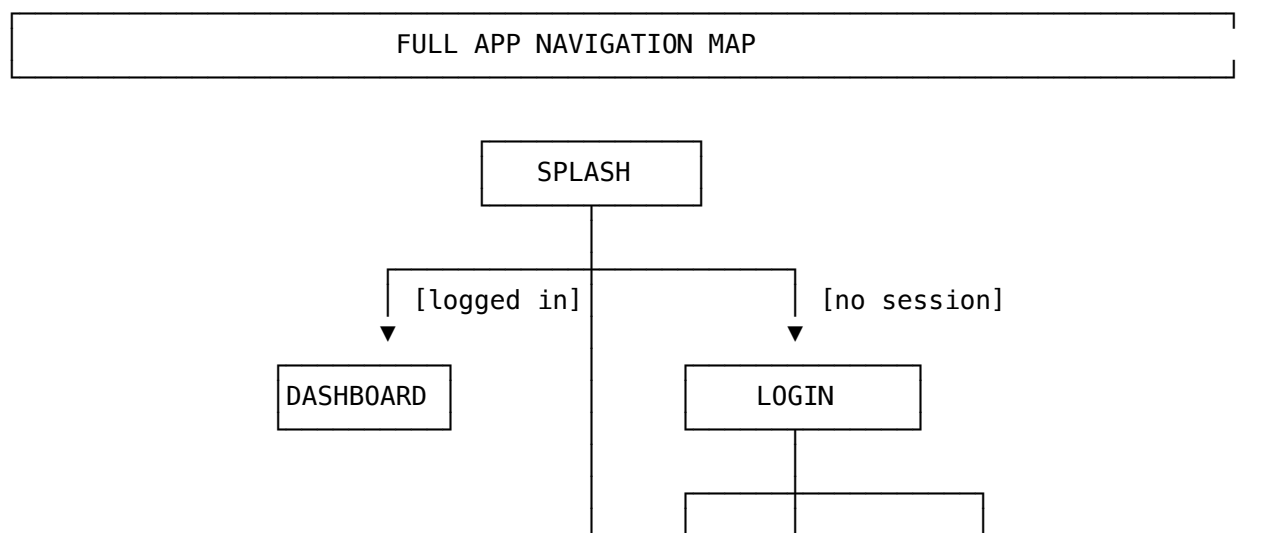

CONFLICT SCENARIOS		
Scenario	Detection Point	Resolution
Double-booked room	Event creation (Step 2)	Show alternatives, suggest open rooms
Volunteer assigned to overlapping event	Assignment creation	Show existing shift, offer swap or decline
Over-capacity RSVP	Registration submit	Auto-waitlist with queue position
Past-date event creation	Event creation (Step 2)	Block creation, "Date is in the past"
Concurrent edit (two admins editing same event)	Save action	Optimistic lock: "Updated since you opened. Merge?"
Offline action conflicts with server state	Sync on reconnect	Queue locally, apply on sync, show "could not apply" if stale
Expired swap request	48h timeout	Auto-expire, notify both parties, revert
All volunteers decline	Gap detection (post-decline)	Escalate: push to all eligible, email admin

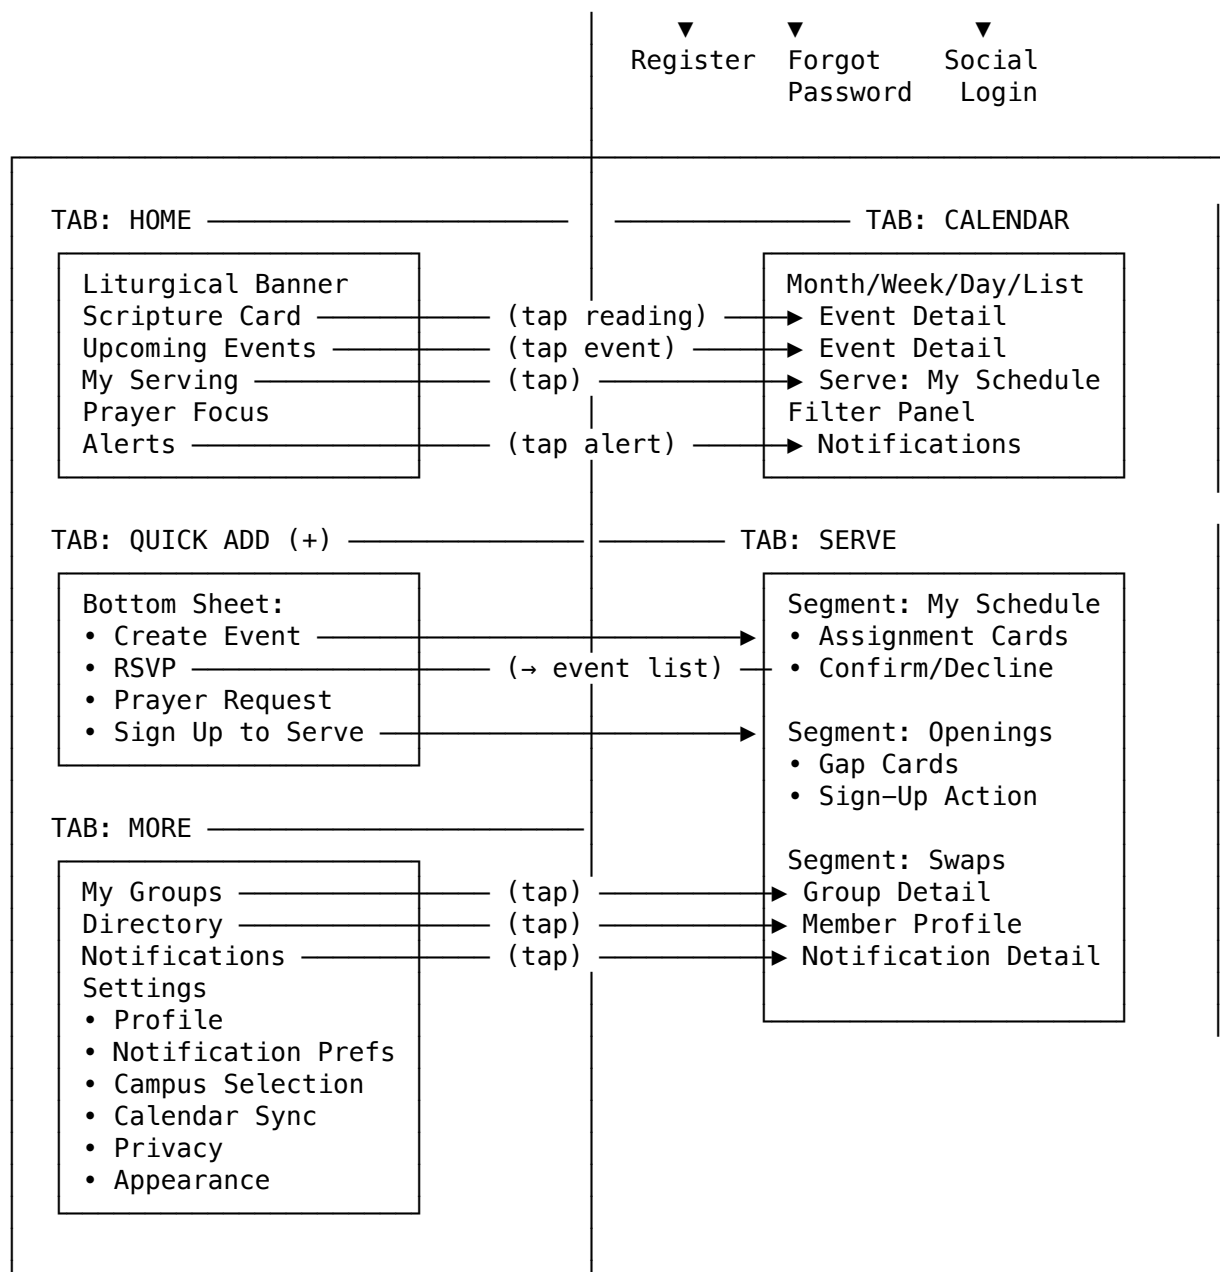

3.2 Offline Sync State Diagram

4. Complete Screen Flow Map

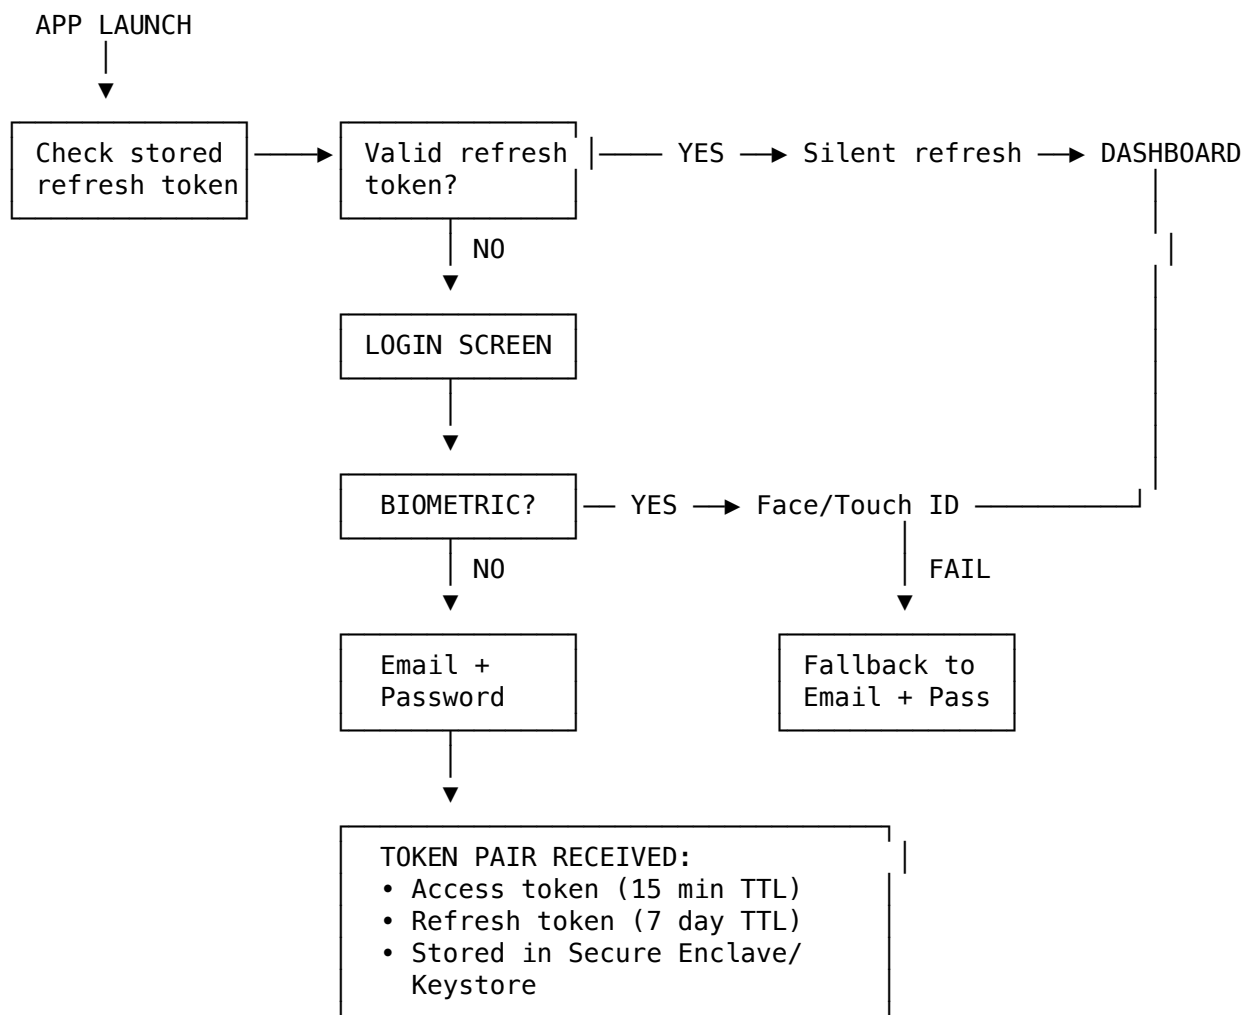

SHARED OVERLAYS & MODALS:

- Event Detail (full screen, from any event tap)
- Event Creation Wizard (4-step modal)
- RSVP Confirmation Sheet
- Swap Request Sheet
- Filter Panel (bottom sheet)
- Search (overlay with results)
- Share Sheet (native iOS/Android)

5. Session & Authentication Flow

SESSION & TOKEN LIFECYCLE

DURING SESSION:
